

cosēva™ ADVANCED TRS

Reveal your body's wholeness, realize your mind's potential.

As a pure manufactured zeolite, the mind-blowing nanotechnology of **Advanced TRS** provides the most effective toxin removal system of its kind.

Lead, mercury, aluminum and arsenic have unfortunately found their way into our bodies due to our modern environment. Advanced TRS utilizes zeolite detoxification at the cellular level by trapping these harmful toxins and removing them from your body.

Advanced TRS will help to carry certain nutrients more effectively and boost the immune system. Advanced TRS represents the culmination of Cosēva's core belief that better wellness has to stand on solid science.

Offering an average zeolite size of 0.9 nanometers and an estimated surface area of 4.8 million sq ft per bottle of toxin removal surface area.

- No preservatives

Suggested Use: Take 2 sprays in the morning and 3 sprays in the evening each day by mouth.

Warning: If you are pregnant, breastfeeding or taking prescription medications consult your physician prior to use. **KEEP OUT OF REACH OF CHILDREN.** Do not use if tamper evident seal is broken. Store at controlled room temperature (59°-86° F). Avoid excessive heat and humidity.

DIAGRAM OF A ZEOLITE MOLECULAR STRUCTURE

inert in your body—so your body doesn't recognize it as anything out of the ordinary. However, heavy metals, radioactive elements and other toxins are a different story. They are extremely attracted to zeolite "cages."

Because this zeolite uses nano-technology and is encapsulated in water clusters, it will go anywhere in your body water can.

SUPPLEMENT FACTS

Serving Size: 5 sprays per day.
Servings per 28mL container: 28

Amount per serving	% Daily Value*
Proprietary Processed Manufactured Cloptitolite 1.0mL	†

* Percent Daily Value (% DV) are based on a 2,000 calorie diet † Daily value not established

Other Ingredients: Pure Water.

THE SCIENCE OF ZEOLITE

On its own, your body has to go to a lot of work to neutralize and remove toxins, if it is able to remove them at all. For example, lead and mercury are notoriously difficult to remove. And as a person's body becomes more toxic with heavy metals, it becomes less able to remove them. The beauty of zeolite is that it is

Zeolite has always been available for removing toxins. Manufactured with nano-technology to guarantee purity and size, zeolite can saturate water... and go anywhere in your body water can. This is Advanced TRS.

HOW IS SMALLER BETTER?

Nano means that the particles are very small. For Advanced TRS, the average particle size is only 0.9 nanometers. Cosēva uses standard particle measuring equipment every production

run to ensure the purity, size and saturation of the manufactured zeolite in water.

Zeolite is a multi-cage-like structure, and only the surface can trap toxins. So, by making the particles smaller, more of the cages are exposed to trap toxins. For example, imagine you have ten beach balls floating in a backyard pool. Would that cover the surface of the water? Not really. What if those beach balls were stuffed with ping-pong balls? If we freed them to float on the surface, would they cover the surface of the pool? Yes! Likewise, nano particles of zeolite cover much more surface area and come into more contact with your body than larger particles.

Removing toxins down to the *actual cellular level*, Advanced TRS is a proprietary manufac-

tured clinoptilolite formula. Your body has never experienced the chelation process like this before.

WELL-BEING THROUGH TOXIN REMOVAL

Try our cellular cleanse challenge by following these six steps to improved health:

1. Greet your day with a morning dose of Advanced TRS—2 sprays into your mouth.
2. Drink 8 cups of clean water throughout the day to flush out toxins trapped by ATRS.
3. Put some spring in your step (park a little further away, play with the puppy, chase after the kids). Track your daily movement.
4. Eat to live well. Don't go nuts (although nuts are good), but small changes can go a long way to creating a much healthier you.
5. Finish your day with an evening dose of Advanced TRS—3 sprays in your mouth. *The key is to be consistent.*
6. Sleep. Many people don't realize that the body is busy cleaning our cells while we rest. Strive to get 8 hours a day.

All Cosêva products meet the Cosêva Clinical-Grade™ standard, because we believe true wellness meets at the intersection of science and usefulness.
